I must not fear.

Fear is the mind-killer.

Fear is the little-death that brings total obliteration.

I will face my fear.

And when it has gone past I will turn the inner eye to see its path.

I think I could turn and live with animals. They are so placid and self-contained. I stand and look at them long and long. They do not sweat and whine about their condition. They do not lie awake in the dark and weep for their sins. They do not make me sick discussing their duty to God. Not one is dissatisfied. Not one is demented with the mania of owning things. Gianni Grassi a.k.a., Yesei Kaige (Wild Spirit-Precept Flower)  
Wrote a poem titled "How A Feral Monk Thinks"

The feral monk does not abide  
Takes rest in no masters refuge

Schools of thought collect like frost around ideas  
that occur largely out of schools

Institutions bestow credentials  
Courage bestows credibility

The street and the unbeaten path  
are my monasteries

I have been feral all my life.  
Embraced transformations. Shattered cocoons. Emerged.

Lately have lived by my wits with no greater need for nostalgia  
than that which sustains my gratitude

Faith is the willingness to show up vulnerable.  
Trust is actually showing up that way

GOD is a three letter word  
that stands for everything that I do not  
know at this moment.

Seekers never find. Finders never seek.  
I prefer finding

I aspire to see everything old as if for the first time ...  
... everything new as if for the last

I would rather feel the Buddha's blisters on my feet,  
than his footprints on my sandals

Who listens gives teaching ...  
... Who speaks gives listening.

I would like it to be said of my presence ...  
He lived happy, joyous, and free  
on less than his share.

Yaj Ekim's Corollary  
Ooh, feral, I like that word, and all that it implies.

\* \* \* \*

50 TO 10 thousand years ago ... Glaciation ... Hunting ... Shamanistics

Buddha 3.0 ... Periodicity ... WHEN  
10 to 3 thousand years ago ... Glacial Thaw ... Cultivation ... Astrologics

Buddha 4.0 ... Universality ... WHY  
3,000 to 600 years ago ... Hyper-Population ... Trade ... Metaphysics

Buddha 5.0 ... Objectivity ... WHAT  
600 to 60 years ago ... Isolation ... Institution ... Science

Buddha 6.0 ... Emergence ... HOW  
60 years ago to present ... Emergence ... Networking ... Synergistics

Yaj Ekim's Corollary:  
Emerging ... Networking ... Synergizing ...  
But into what in what sort of a dystopian, Frankensteinian creation are we talking about?

Four score and seven years ago  
Our fathers brought forth on this continent a new nation,

Or being in a rest home with other old people whining about all their aches and pains?  
Or staring at a blank wall all day every day in an Alzheimer's facility?
